**To Whom It May Concern,**

**REFERENCE FOR DELONHAMSTON ASSOCIATES EAST AFRICA LIMITED-(DHA East Africa Ltd) ORGANISATION**

I am writing to you on behalf of Homabay County Peace Network Community Based Organization. HCPN CBO is a peace building platform that was founded in response to the national cohesion and integration commission training themed: sensitization forum for the youth on hate speech management, diversity, peace building and national cohesion (NCIC), Kenya. The network has received its legal status as a Community- Based Organization. The network mission is to enhance the capability of the societies and institutions to steer, support and sustain transformative peace building process across the county. This mission is heavily inspired by Kenya's history, more specifically the devastating memories of the proclivities of the 2007/2008 post elections violence in which an estimated number of 650,000 people were displaced and 1,300 others brutally killed with a good number of GBV/ triple threat cases. HCPN is a human rights defender organization and value driven by human dignity, access to justice, social development, and prevention of violence against women, girls and children

I am delighted to introduce you to Delonhamston Associates East Africa Limited (DHA East Africa Ltd) Organization, a remarkable initiative that has been making a significant impact in promoting food security, sustainable agriculture, and community development in Ndhiwa Constituency. Their work aligns with several Sustainable Development Goals (SDGs), particularly SDG 2 (Zero Hunger), SDG 4 (Quality Education), and SDG 13 (Climate Action).

DHA East Africa Ltd initiatives have been truly impactful, and I would like to highlight a few testimonials:

- Food Security and Sustainable Agriculture: DHA East Africa, Ltd programs have enhanced food production and nutrition in local communities, improving the overall well-being of Ndhiwa residents.
- Inter-school Programs: Their initiatives have revitalized sustainable agriculture and food production programs in schools, empowering young minds with practical skills and knowledge thus Chakula Bora initiative

- Innovation and Knowledge Sharing: DHA's work has fostered innovation and knowledge sharing among students and farmers, promoting community development and resilience.

Given their commitment to addressing climate change and promoting sustainable development, I strongly recommend partnering with DHA Organization to:

- Support food initiatives that benefit local communities
- Enhance food security and nutrition in Ndhiwa Constituency
- Empower young minds with sustainable agriculture practices
- Promote community development and resilience

I urge you to join forces with DHA Organization to make a meaningful difference in Ndhiwa Constituency. With their CEO, Brian Stephenson, at the forefront, I am confident that together, we can achieve significant impact.

Best regards,

**Paul Leo N. Herman**

**HCPN CBO Board Chairman**
